ASKS RAILROAD TO CLOSE TUNNEL

Administrative Board Seeks Stevens's Aid in Improving Chimborazo Park.

The Administrative Board yesterday, motion of Captain McCarthy, addresses a communication to President George W. Stevens, of the Chesapeake and Ohlo Railway, asking that his company take up the question of removal of tracks east of the portals of the old Church Hill tunnel, so that the city may fill in the gulley and so prevent alides which have in the past greatly damaged Chimborazo Park. The tunnel was formerly the main line of the railroad, but since the construction of the overhead trestles in connection with Main Street Station it has been used only for shifting purposes. The clty is now engaged in extending the tunnal eastwardly, in order to fill over it and open Graes Street.

Captain McCarthy recalled that many years are when the Chemposters and

Captain McCarthy recalled that many years ago, when the Chesapeake and Ohio had its eastern terminus here, the city contributed \$300,000 toward the cost of digging the tunnel, it being represented that it was to get the railroad through to wharves along James River. No sooner was the tunnel completed than the railway pushed its line to deeper water at Newport News. The city's contribution, Captain McCarthy said, was in the shape of 8 per cent bonds, and he calculates that with the accumulated interest charges up to conds, and he calculates that with the accumulated interest charges up to the time the bonds matured, the total cost to the city was more than \$1,000,000. As the right of way is no longer essential to the operation of the railroad, he thinks, under the circumstances, that the railroad might be induced to cede it to the city, and after the filling has been done a player and

the filling has been done, a playground is projected on the site.

The board yesterday directed construction of water mains in the alley between Mulberry Street and the Boulevard, from Broad to Main Street, and in other streets. T. T. Hulcher appeared before the board complaining of before the board complaining of a whole in the street at Rowland and Stuart Avenue, into which his motor car had slipped. Repairs were ordered.

for the City.
Under the guidance of Councilman
Carter C. Jones, the Administrative Board yesterday made a tour of South Richmond in its new automobile. The

visit was for the purpose of seeing at first hand just where and how to spend the money due the Southside under the annexation agreement. Particular attention was given the sewer situa-tion. Plans have been made for an extensive system, but with the work less than half finished, it has been found that many additional branches must be built. Before this extra work is attempted it will be necessary to make a further appropriation to cover

Morton's Gap

Morton's Gap, Ky.—"I was taken sick, and confined to my room and bed most of the time, for ten months," writes Mrs. Louise E. Hibbs, of this place.

"I had ulcers and then a tumor. The second doctor who treated me said the last chance was an operation, to remove the tumor, and when the direct page and the last chance was an operation, to remove the tumor, and when the direct page and the results of Anthony Comstock a squad of detectives, under the direction of Inspector Dwyer, descended upon the new Palace Theatre, at 1694 Brondway, last night, and stopped the performance of the Polish dancer La Napier-kowsha by placing her under arrest while she was doing "The Dance of the Bee."

The audience did not meet the activity of ether Mr. Comstock or the inspector with approval, for some of the men jumped to their feet and hissed, while others stalked down the alse to the stage, as if to throw the detectives out. The management soon quieted the disturbance.

The part of the dance that Mr. Comstock disapproved was where the young woman found herself surrounded by a swarm of bees, stupefied previously by smoke. But one venturesome bee sought warnath beneath the filmy vell skirt of the dancer, whereupon she naturally became concerned and decided that the best method of ridding herself of the bee was by twirling about and removing her covering of veils.
